

Welcome to *Escape the Forces of Nature Museum*, an online breakout activity from Perimeter Institute for Theoretical Physics. This activity was created in celebration of the International Day of Women and Girls in Science (February 11). If you succeed in escaping the museum, you'll receive an invitation to download Perimeter Institute's Forces of Nature posters recognizing the achievements of women scientists.

Please note: You will progress through this activity by solving puzzles presented on Google Slides. To solve some of the puzzles, you may find it helpful to manipulate the slides by drawing lines, moving images, or making notes on the slides. In order to make any changes to a slide, you will first need to make your own copy of it by selecting File -> **Make a Copy**.

Good luck!
